Post Operative Instructions

HAND OPERATION

1. Keep your hand elevated in a sling, at the level of your shoulder, particularly for the first 2 – 3 days or longer if instructed. It may be removed from the sling but must be kept above the level of your heart to minimise swelling and bruising
2. Take your hand out of the sling several times a day to exercise the elbow and shoulder by raising your arm several times
3. Please report any increasing tingling or progressive loss of sensation in your hand

Follow up appointment:
